

Evolution Line (Titanium)

Produkt-Code: S-RE/T/1 CARB

The Akrapovič Evolution system made of titanium takes the performance theme even further. The impact on weight loss and performance versus the stock system of the Megane R.S. is even more dramatic. There are real power delivery gains, and the engine, which is already primed for high-rev action, spins even more effectively, which in practical terms means that it's noticeably more responsive. In addition to the look of Megane R.S. with the Evolution system which is completed with distinctive precision-crafted carbon fibre tailpipes, also the sound is deeper and sportier.

TECH. DATEN	EINHEIT	ORIGINAL	AKRAPOVIČ	MAX. WERTE
Maximale Leistung	kW	203.4 bei 5500 rpm	204 bei 5550 rpm	+ 3.4 bei 5850 rpm
	PS (m)	276.6 bei 5500 rpm	277.4 bei 5550 rpm	+ 4.6 bei 5850 rpm
