SLIP-ON MEGAPHONE EXHAUST SYSTEM

KAWASAKI Z1000 / Z100SX

SLIP-ON MEGAPHONE EXHAUST SYSTEM

DESCRIPTION

The dynamic, bold looking sport touring Kawasaki offers a great tuning platform for motorcyclists who desire something special. Our sporty and lightweight SLIP-ON systems offer a great balance between price and performance and represent the first step in the exhaust system tuning process.

The megaphone shaped muffler outer sleeve is made of titanium, which gives a special MotoGP touch to our SLIP-ON system. We offer only open version with removable noise dampers. SLIP-ON Megaphone is not compatible with Kawasaki side cases.

PERFORMANCE

Measurements of the Akrapovic SLIP-ON street legal system on the Kawasaki Z1000 / Z100SX (without noise damper):

The Akrapovic SLIP-ON system will deliver a big power and torque increase from a simple modification. Power output is smoother over the entire rpm range. We measured a max. power increase of 7.6 HP at 10200 rpm. The torque is increased over the entire rpm range, which is exceptionally useful for more comfortable and smooth riding. With our SLIP-ON systems you will also save more than 6 kg in comparison with the stock mufflers.
