SLIP-ON STREET LEGAL EXHAUST SYSTEM

DESCRIPTION

The Akrapovic Slip-On is an excellent choice for riders who do not wish to make excessive modifications to their bikes. It is an easy-to-install base level exhaust system component, and an excellent combination of production quality, performance, affordability and visual enhancement. The striking HEXAGONAL muffler with carbon fiber or titanium muffler outer sleeve perfectly complements the lines of the bike. The slip-on system is legal for street use.
